

Weld-Mask™ Series

Auto-Darkening Welding Goggles

Quick Specs

Applications

Welding in tight, awkward positions
Welding with hard hats

Shades

Weld-Mask: 5, 7, 9, 11 and 13
Weld-Mask 2: 5–13

Battery Life 1,000 hours

Sensors 2

TIG Rating

Weld-Mask: 20 amps
Weld-Mask 2: 5 amps

Switching Speed

Weld-Mask: 1/15,000 second
Weld-Mask 2: 1/25,000 second

Weight (not including head cover)

Weld-Mask: 7.8 oz. (220 g)
Weld-Mask 2: 11.8 oz. (345 g)

Common Features

Compact auto-darkening lenses allow users to weld in spaces where access with traditional welding helmets is limited.

Soft close-fitting eye covering provides total darkness for precision welding.

Face shield and flame-retardant head cover provide coverage for UV/IR rays and applications with limited spatter.

Ideal for use with hard hats. Both Weld-Mask models fit under a hard hat without the need of an adapter.

Weld-Mask Additional Features

Ideal for auto restoration and other DIY environments. Narrow design provides protection without getting in the way.

Shades 5, 7, 9, 11 and 13 for use with MIG, TIG, stick, and gas welding and cutting.

Extremely lightweight (7.8 oz.), virtually eliminates neck strain.

Warranted for two years, parts.

Weld-Mask 2 Additional Features

Ideal for industrial or construction environments. Can be worn with a Miller® Half Mask Respirator and Miller® Classic safety glasses.

Shades 5–13 for use with MIG, TIG, stick, and gas welding and cutting.

Wide singular lens provides unmatched auto-darkening range of visibility.

X-Mode™ electromagnetically senses the weld to eliminate sunlight interference and continuously detects the arc even if sensors are blocked.
